## HELDERBERG BABY SAVER

**Dont Throw Your BABY Away**

Helderberg Baby Saver –  
creating the possibility for miracles to happen.

On Monday 7th October the Helderberg Baby Saver was put to the test when a desperate mother placed her baby into it, rather than dumping her baby in a bin or a field. At 15h00 on Monday the weight of the baby placed onto the pressure-plate in the Saver triggered a panic alarm to Secure Rite who monitor the device. They phoned down the Responder list and reached Amanda-lea Jones, one of four local volunteers. Within minutes Amanda was at Choices where the Saver is housed.
